

Windows and Doors

sales@francdesigns.com
www.francdesigns.com

Franc Designs, provides windows and door solutions to the Middle East and Asian market since 2015. We specialize in design and build of BiFold and Single panel windows and doors of various shapes, sizes and features.

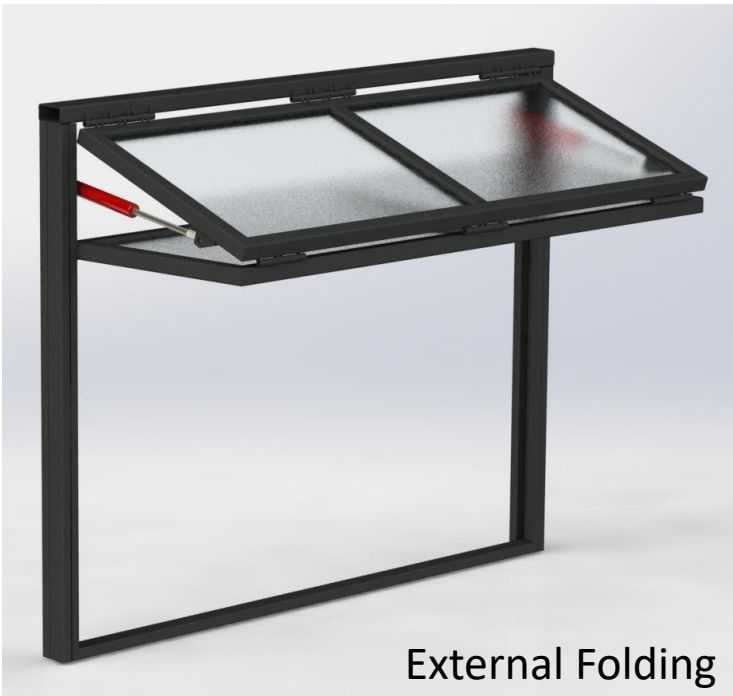

We also take equal interest in designing and developing custom solutions to ever evolving building and architectural needs of the region.

Our products go through rigorous engineering design and analysis cycles to ensure peace of mind to our customers and trouble free operations throughout years. Our design team is capable of creating best designs and also pitch in to solve complex integration issues which may happen at site.

All our products are analyzed for strength and life using various CAD packages. They also undergo virtual assembly which helps us install the products on time.

We are based out of U.A.E. and our components are manufactured within the country enabling quick resolution of engineering problems and short lead time to build and install. OEMs are carefully selected from reputed brands to ensure trouble free operation and availability of spares.

Bifold Windows and Doors

External Folding

Bifold Window			
Material Options	Mild Steel	Finish	Powder Coated: RAL Colours
	Stainless Steel		
Folding Options	External Folding	Swings outside building.	
	Internal folding	Swings inside building.	
Actuator	Hydraulic Actuators		
Operation	Push Button		
Options	Remote Control, Obstacle sensor		
Width	Up to 8000 mm		
Height	Up to 5000 mm		

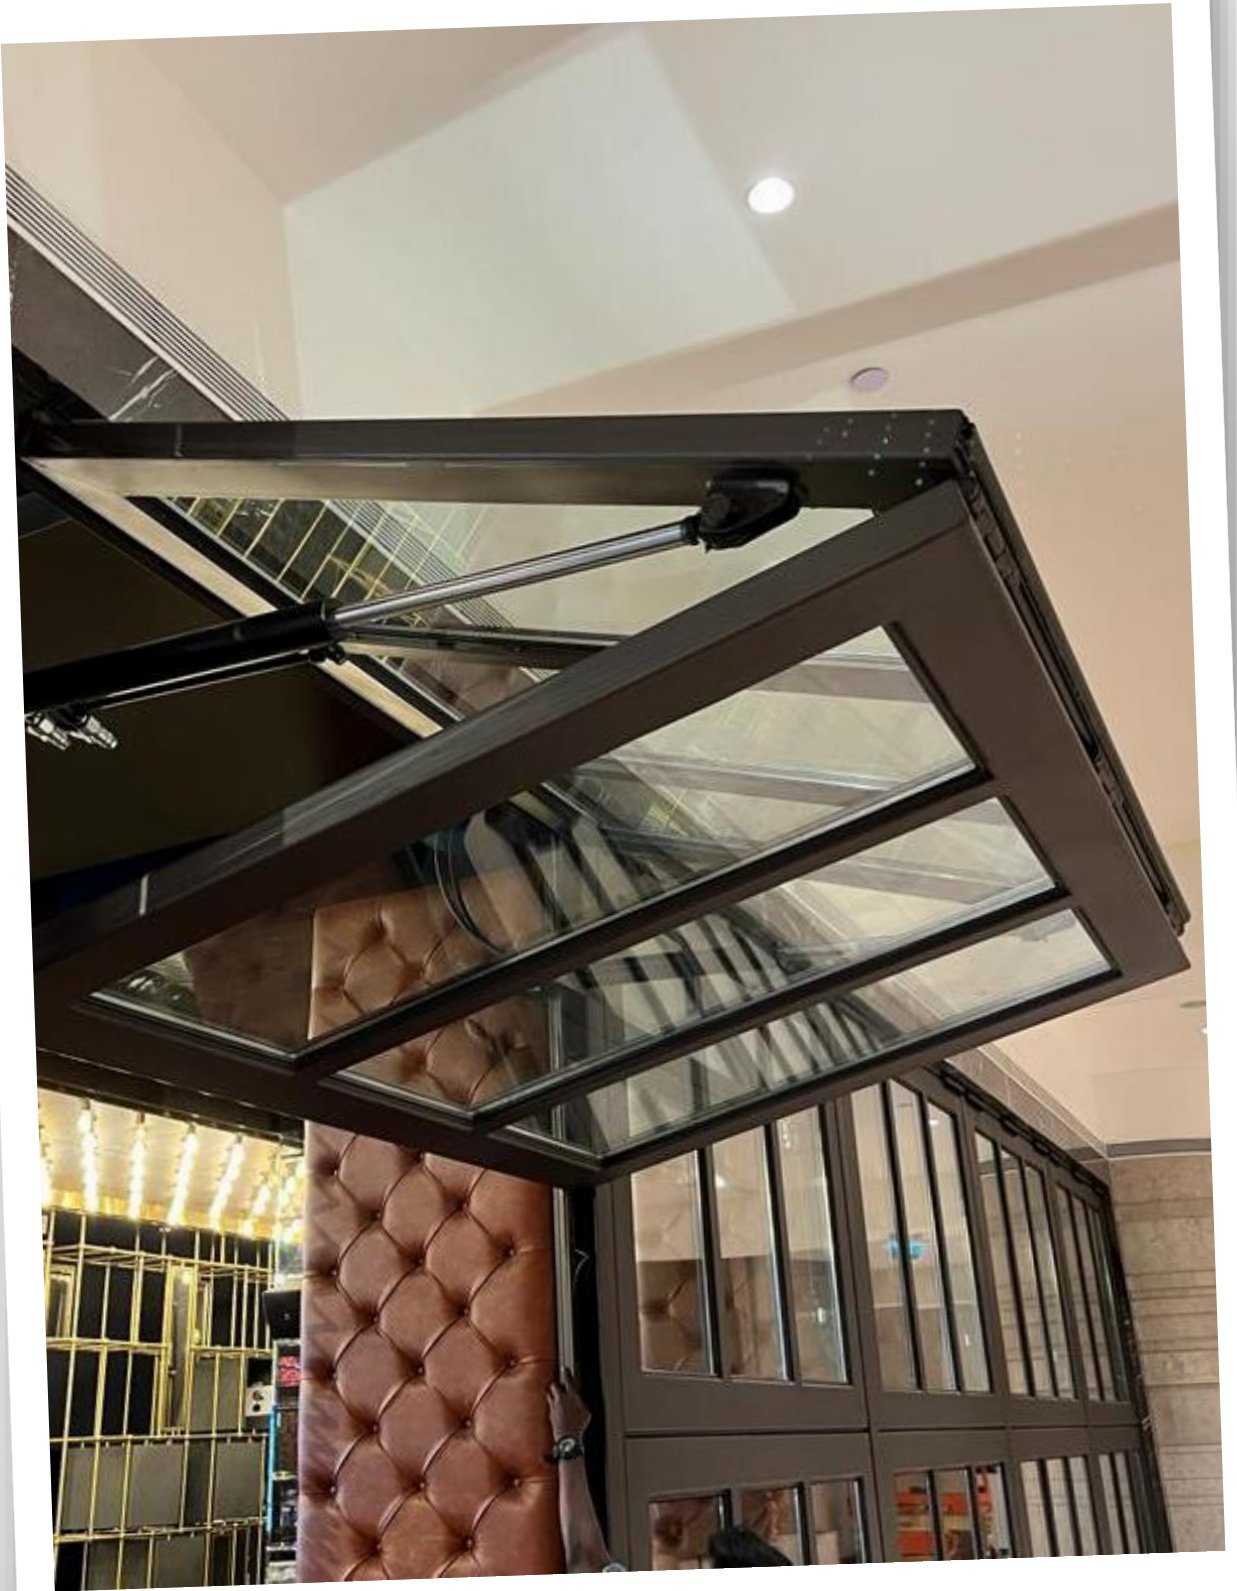

Features:

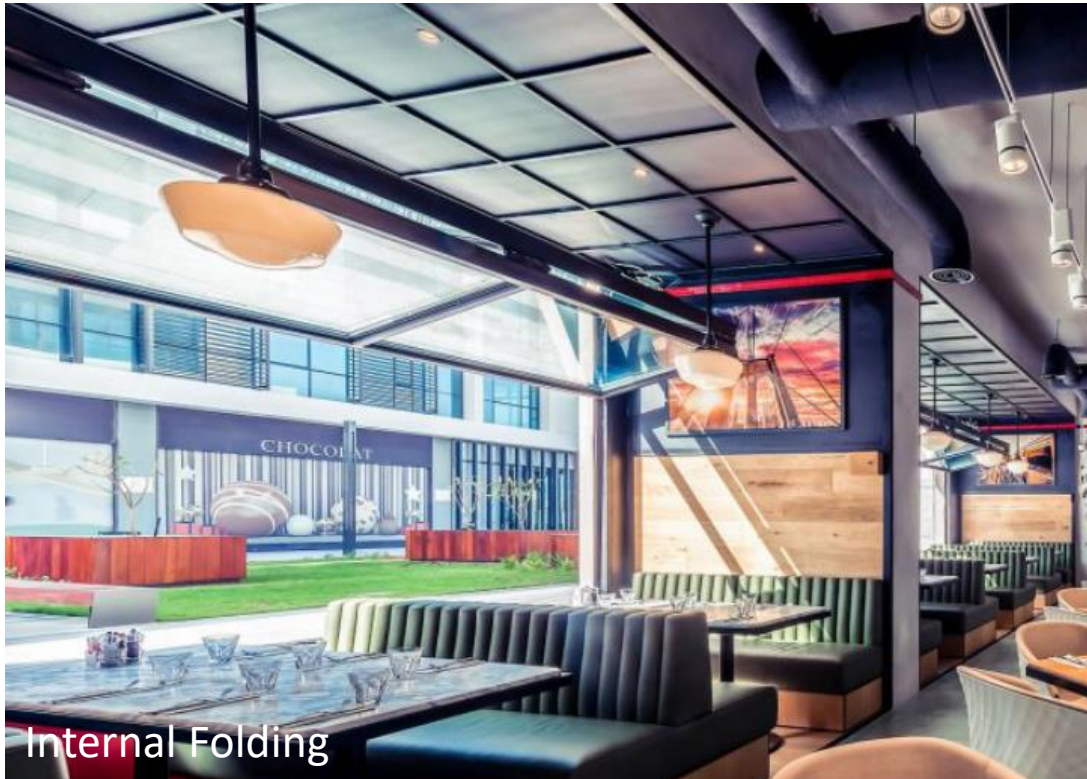

- Engineered to Last.
- Carefully designed and analyzed using CAD packages.
- Custom Solutions / operation modes available.
- Frame and other components are manufactured in UAE.
- Hydraulic components are sourced globally from reputed brands and assembled in UAE

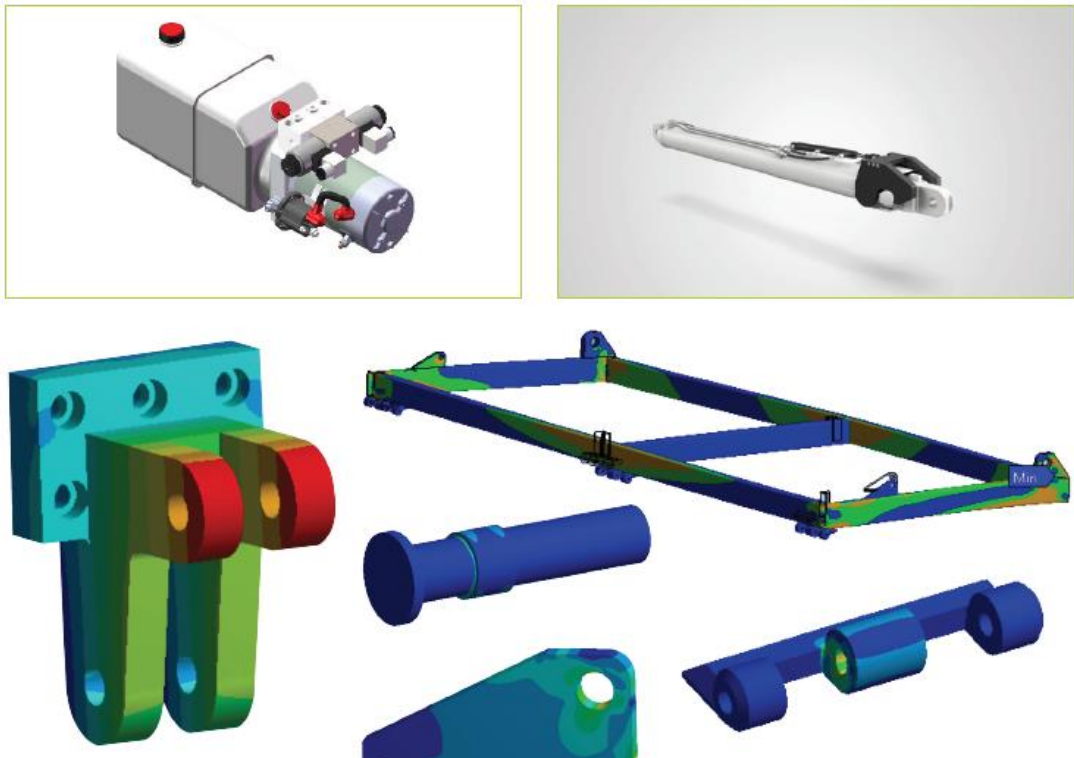

High Quality OEM components and engineered components.

Single Panel Windows and Doors

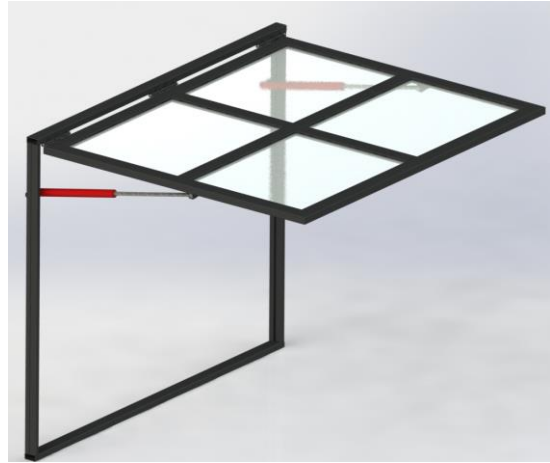

Single Panel			
Material			
Options	Mild Steel	Finish	Powder Coated: RAL Colours
	Stainless Steel		
Types	Full Swing		
	Internal Overhang		
	Split Opening		
Actuator	Hydraulic Actuators		
Operation	Push Button		
Options	Remote Control, Obstacle sensor		
Width	Up to 8000 mm		
Height	Up to 4000 mm		

Features:

- Engineered to Last.
- Carefully designed and analyzed using CAD packages.
- Custom Solutions / operation modes available.
- Frame and other components are manufactured in UAE.
- Hydraulic components are sourced globally from reputed brands and assembled in UAE

Full Swing:

- Hinge on the outside of building.
- Panel is swung outside to open.
- Maximum Canopy

Internal Overhang:

- Hinge on the inside of building.
- Lower portion of Panel is swung outside to open.
- Top portion of panel swings inward
- Ideal for cladding with architectural elements.

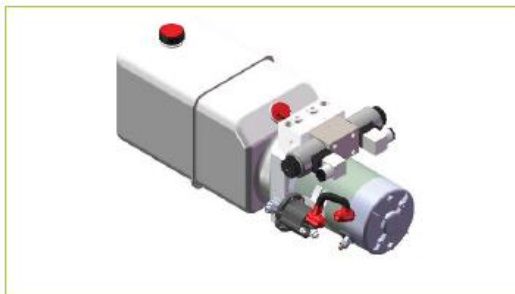

Split Opening:

- Hinge on the side post.
- Lower portion of Panel is swung outside to open.
- Top portion of panel swings inward
- Ideal for cladding with architectural elements.

High Quality OEM components and engineered components.

Single Panel Window.

With integrated Balustrade

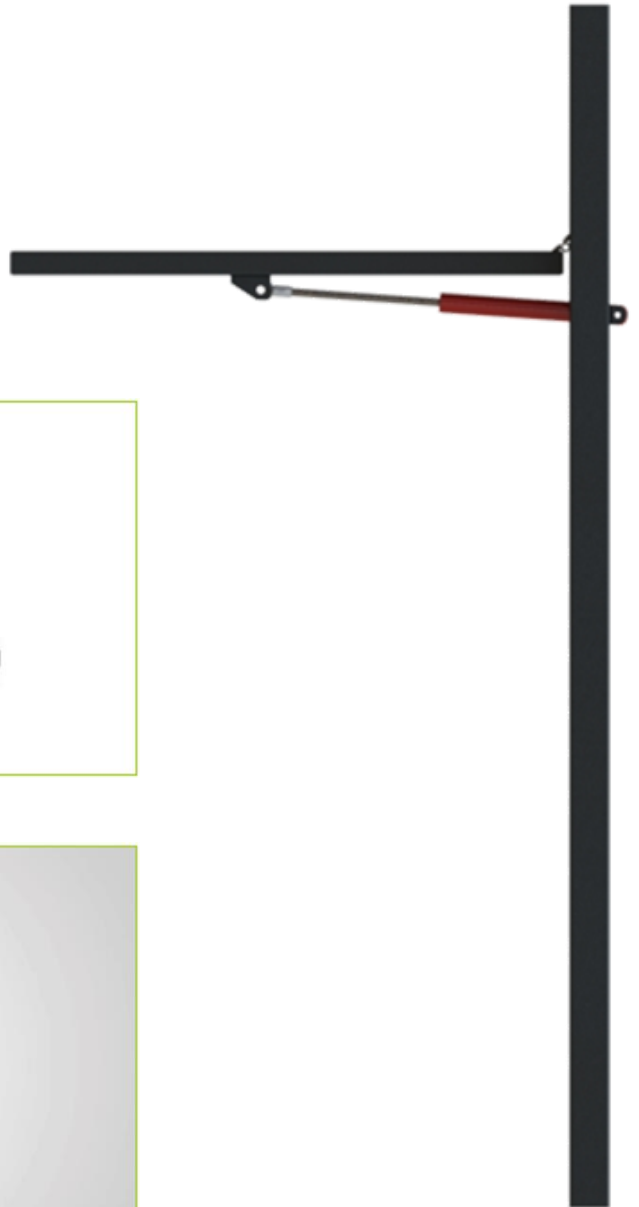

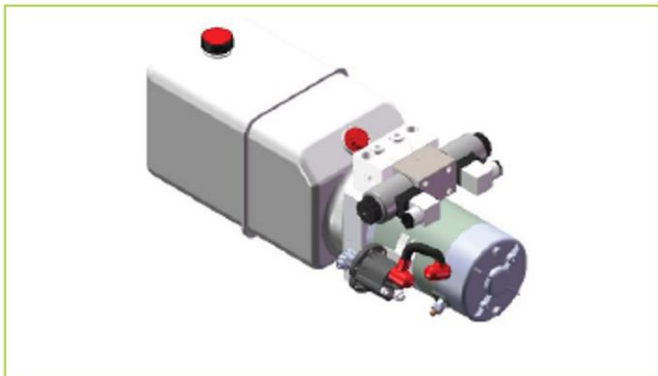

Material			
Options	<i>Mild Steel</i>	Finish	<i>Powder Coated: RAL Colours</i>
	<i>Stainless Steel</i>		
Types	<i>External Opening</i>		
Actuator	<i>Hydraulic Actuators</i>		
Operation	<i>Push Button</i>		
Options	<i>Remote Control</i>		
Width	<i>Up to 5000 mm</i>		
Height	<i>Up to 4000 mm</i>		

Features:

- Engineered to Last.
- Carefully designed and analyzed using CAD packages.
- Custom Solutions / operation modes available.
- Frame and other components are manufactured in UAE.
- Hydraulic components are sourced globally from reputed brands and assembled in UAE

Operator - Hydraulic Cylinder.

- Allows for smooth motion profile.
- Superior load holding capability.
- Silent.
- Energy efficient.
